Subject: Microsoft Settlement

The settlement suggested by the Department of justice is fair for both sides. Anything done besides is a waist of Tax Payers money to satisfy the personal egos of some individuals. Our economy is hearting enough and one thing we need is a software (Bin laden) with in our own goverment. The only monopoly that I see is effecting is AOL-Time Warner where I can not have a choice of my Internet Service Providor in New York Area for Cable Connection and have them keep rasing the rates everytime.
